Immaculate High School
June, 1958

Come right in

. . . and meet the girls of Immaculata. Share in our fun, our activities, and our achievements—but, most of all, share in our memories.

In this issue

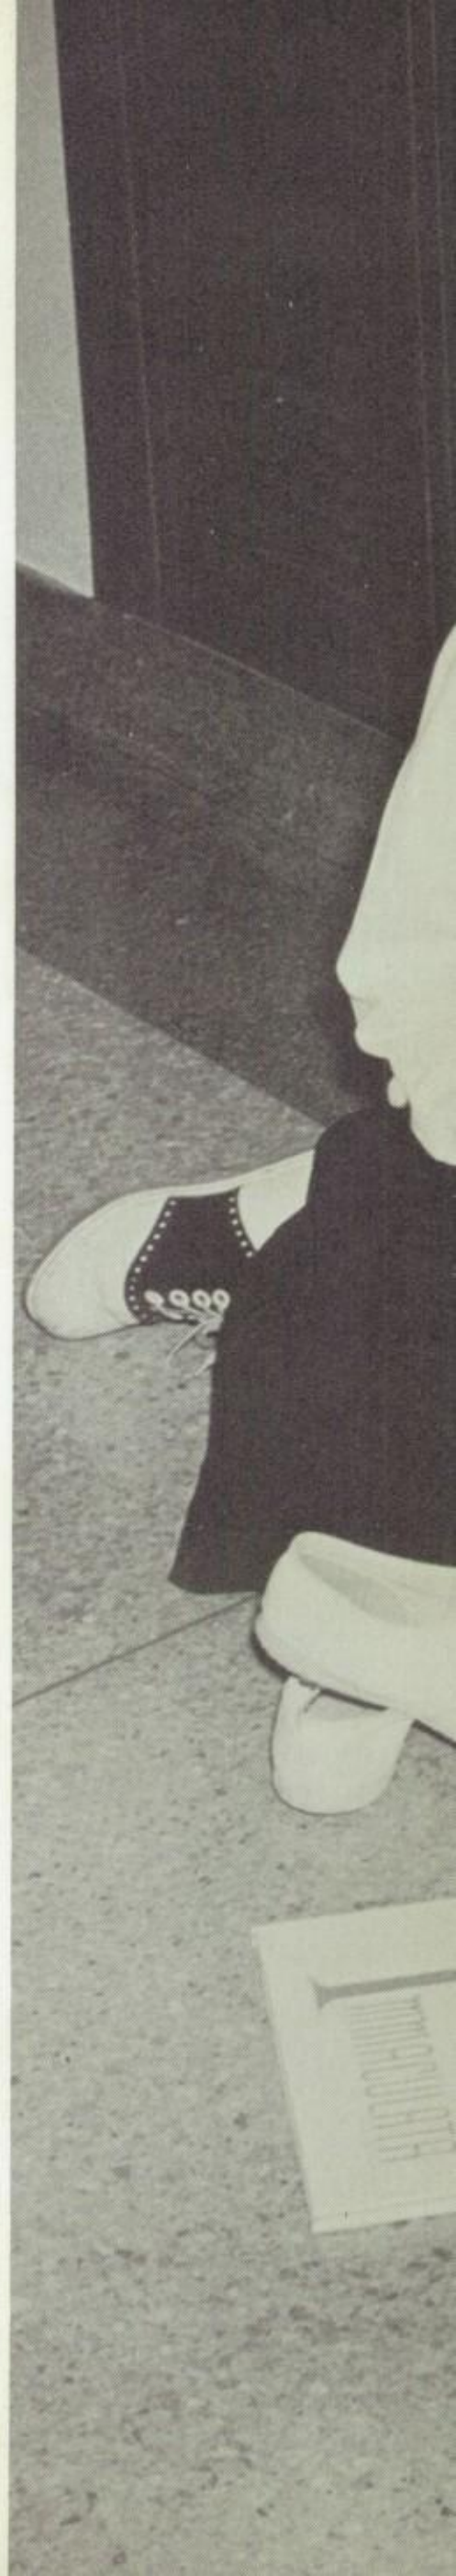

We present the story of our school days at Immaculata. Here are moments—fleeting bits of time captured forever in pictures and in words.

Once again it is June and time for us to empty our lockers—these treasuries of a full rich year. As we store away our scribbled notes, put aside our beanies and our books, take a last fond look at our white tassels—we recall the expression of a face, the tone of a voice, the feeling in the depth of our hearts. These are the things that have happened. These are the things that really matter.

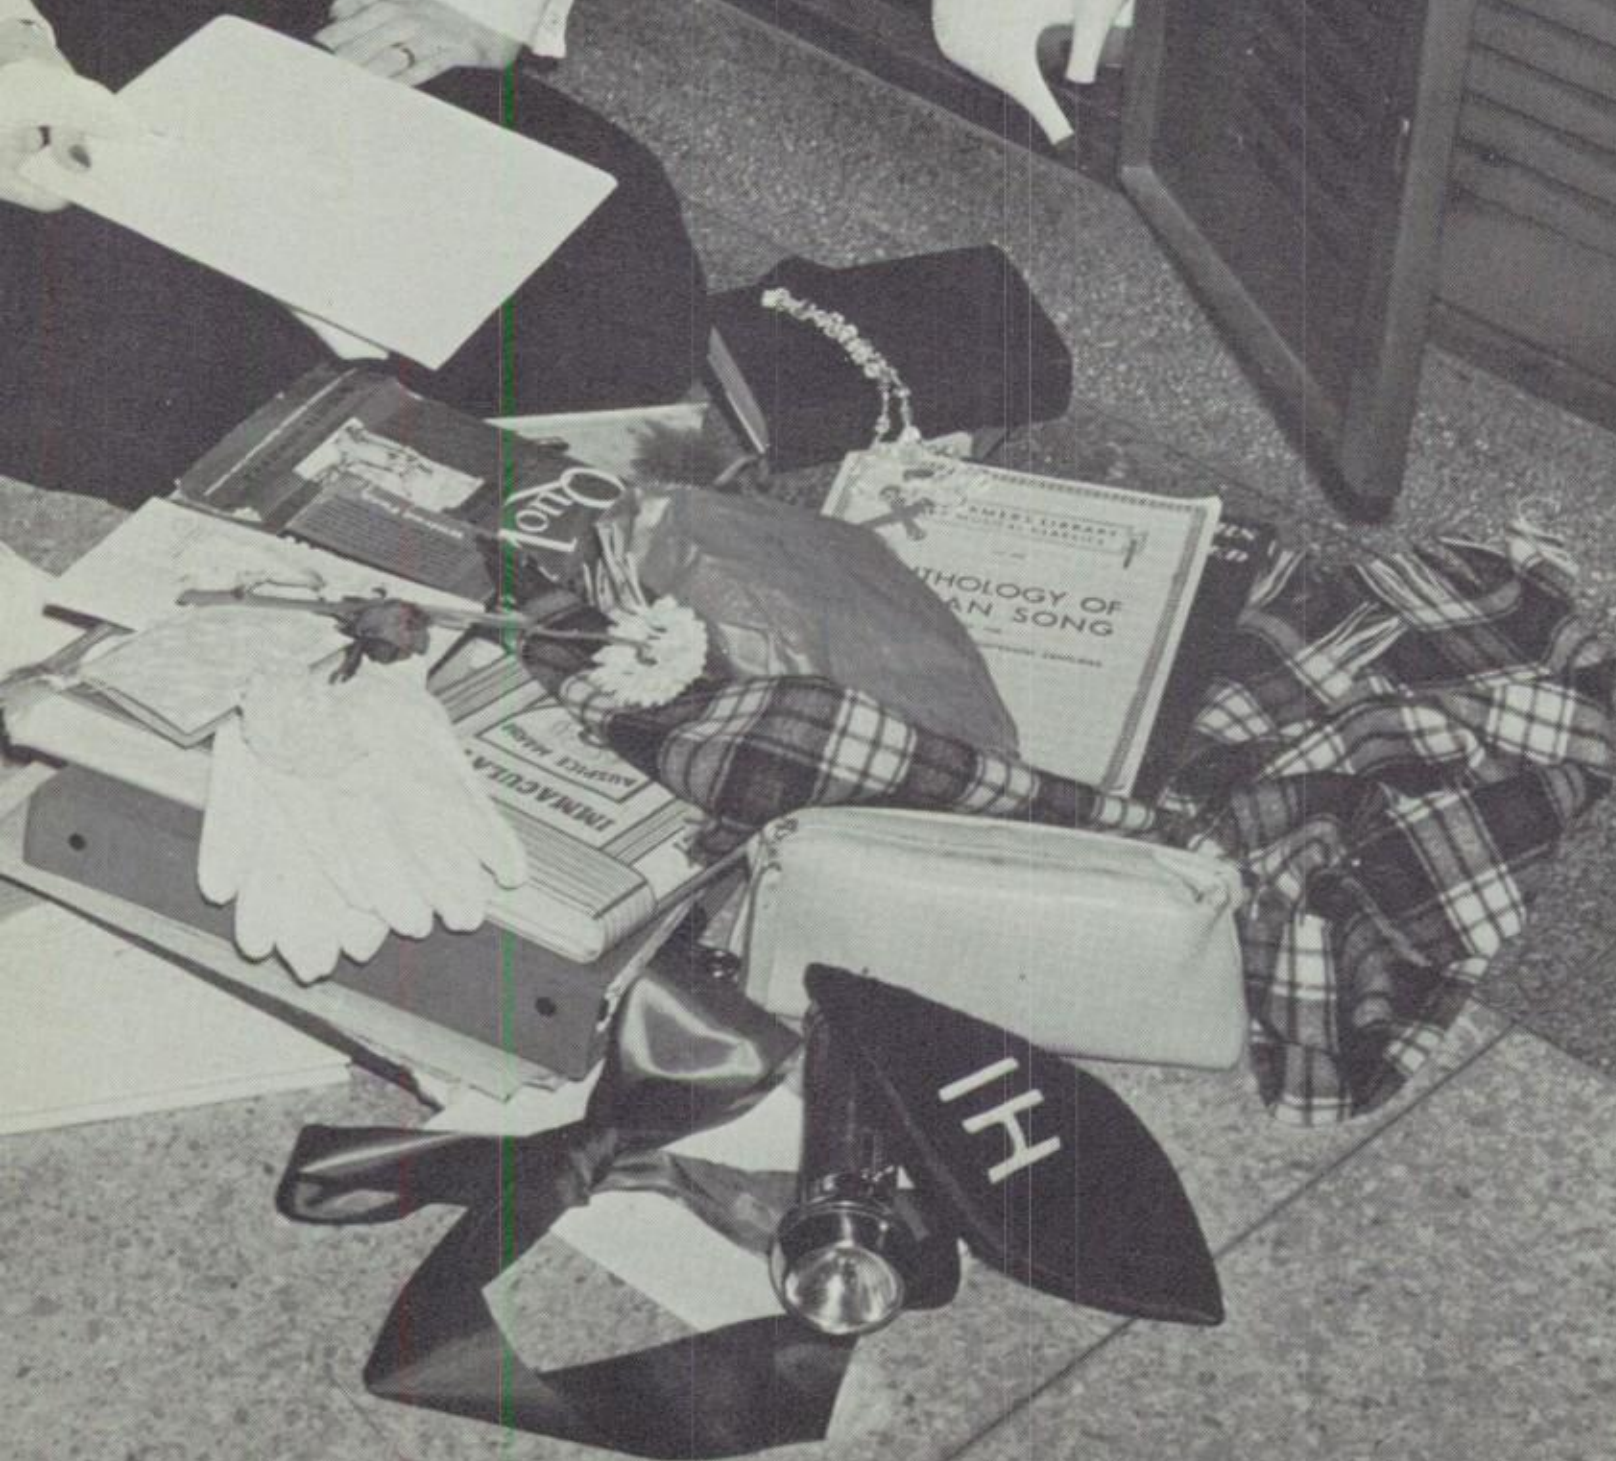

And yet . . . this book can only be a footnote to the real life at Immaculata. The deeper living, learning, and high ideals are now within our minds and hearts—an intimate, personal part of each one of us.

It is, then, with joy and gratitude that we present . . .

The Centennial of the Apparitions
of Our Lady at Lourdes

Dedication

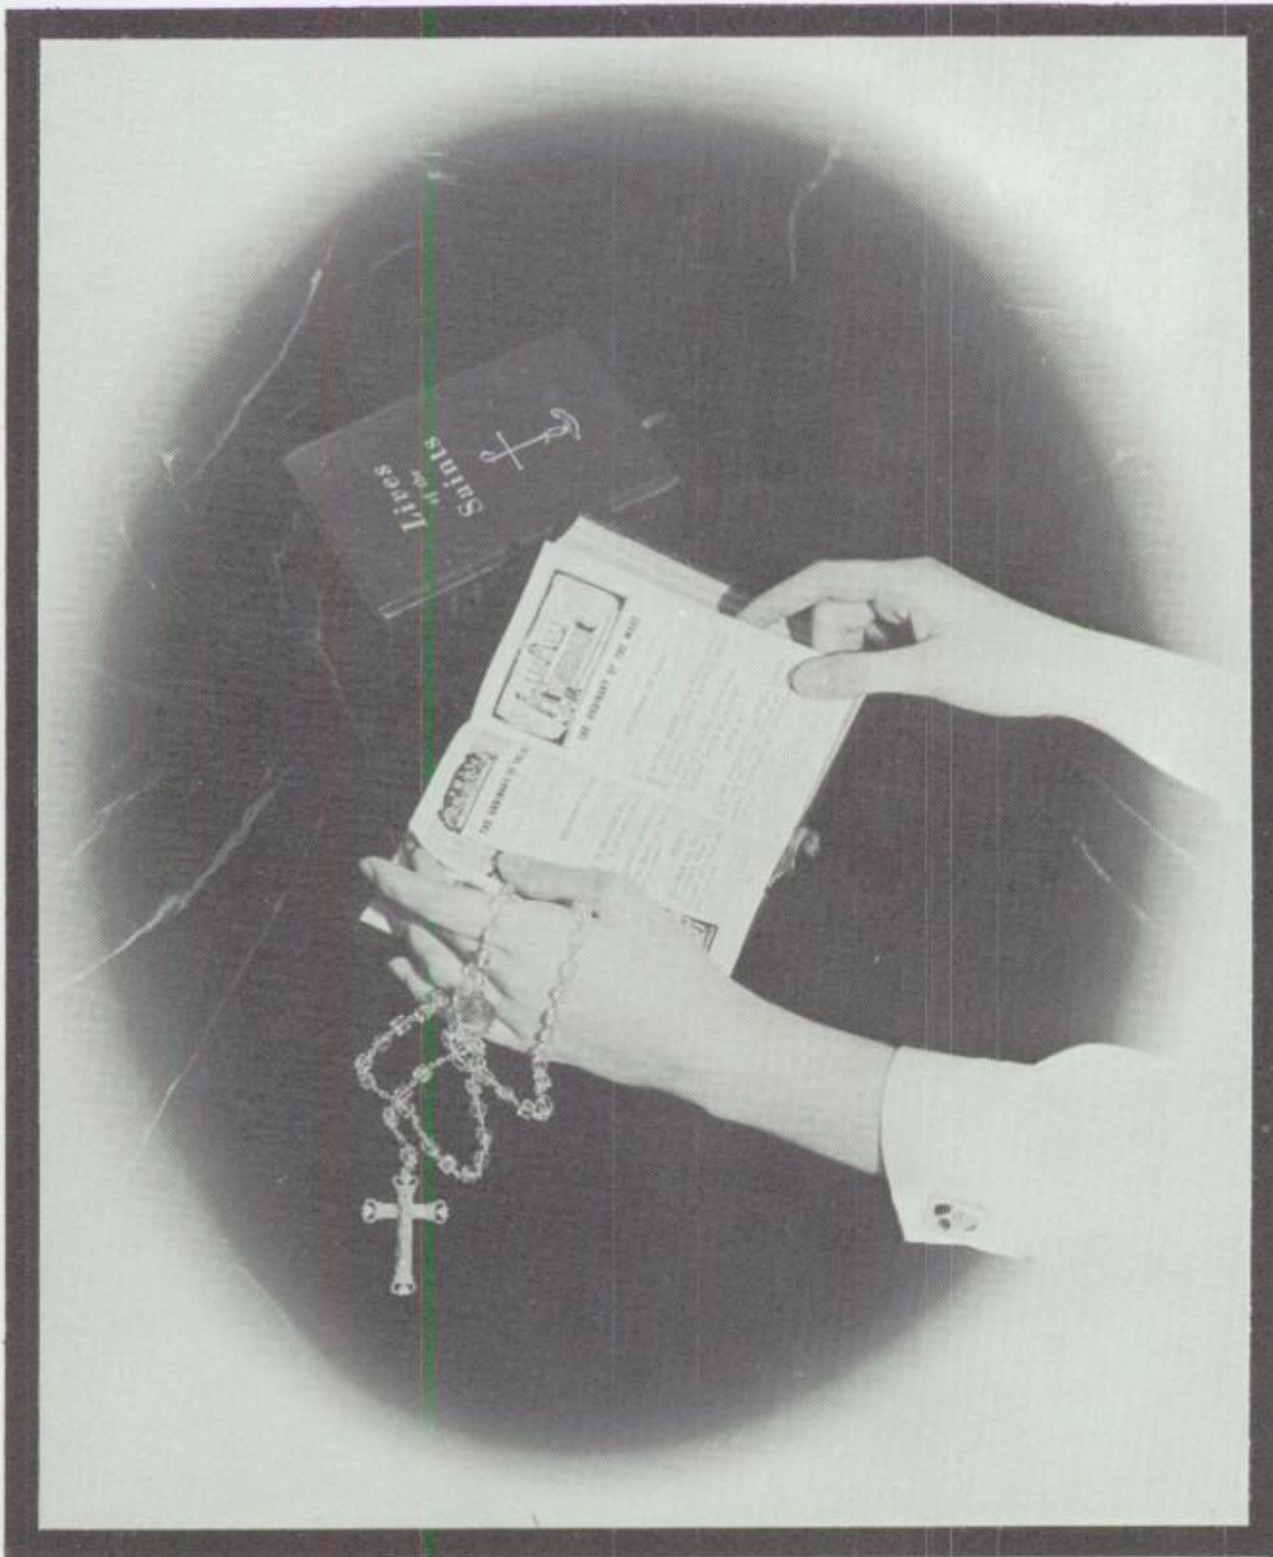

We dedicate these pages to you, Mary Immaculate, in the hope that you will continue to protect and to guide our lives in the future as you have done so well during our schooldays at Immaculata. As the humble Bernadette heard and answered your petition for prayer and sacrifice—so, too, do we accept your challenge of unselfish devotion to the cause of Christ in the modern world. We, too, shall search for the truth and put aside the false so that we may continue to develop spiritually.

In we go—nervously! Out we come—calmly, satisfied, and grateful for our interview with our chaplain and adviser, Father Dietz.

Happiness Abounding

Where else can we get so much for so little? . . . Daily Holy Communion, frequent opportunities for visits to the Blessed Sacrament, daily Rosary, our *morning intention*, Confession (when we wish it), monthly Holy Mass, the yearly retreat, the sodality—and, of course—deep and meaningful spiritual principles taught in every class. Yes, the most important part of our lives at I.H. is not just the religion class taught forty minutes a day, but the spiritual formation that takes place every minute of every day we spend at Immaculata.

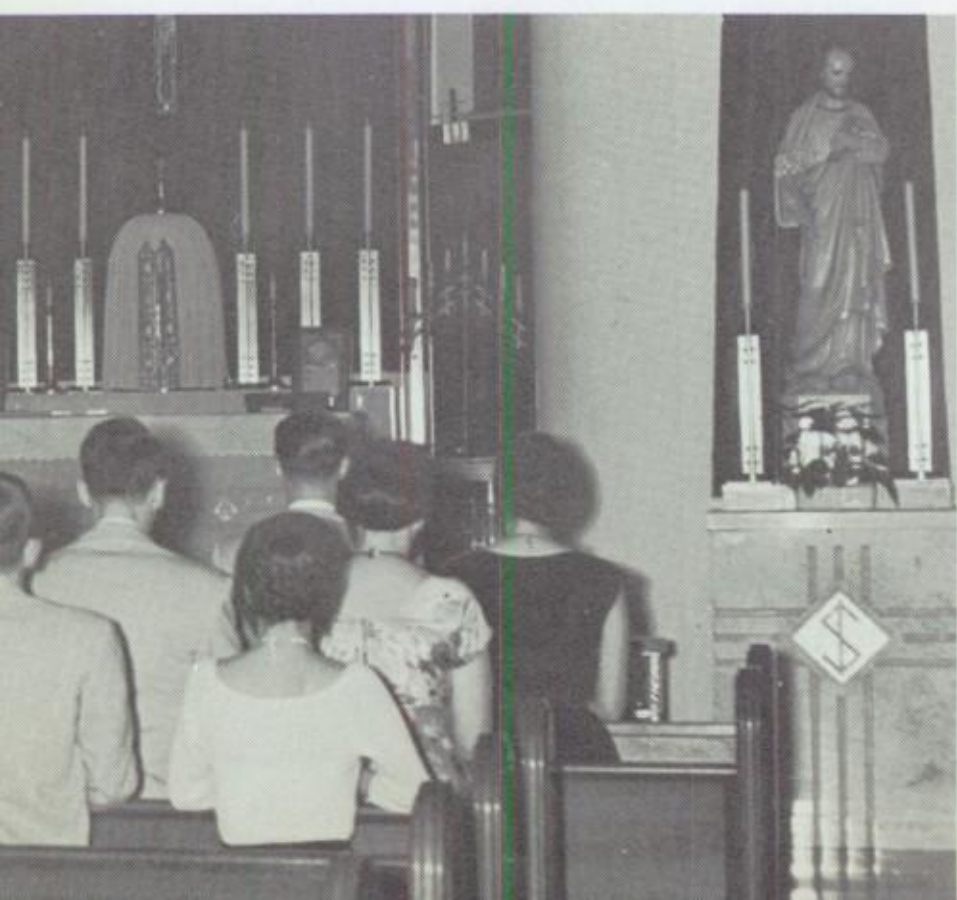

Opportunities for

Practicing our Faith. . . .

Reviewing Retreat . . .

JANUARY 27, 28, 29—1958! These were the three most important days of our school year. Reverend Herbert F. Weir, Pastor of the Church of the Divine Child, Dearborn, Michigan was our retreat master. Through his inspirational retreat talks and through the long hours he gave us in the confessional, he brought us all closer to Almighty God.

A Year of A.M.D.G. . . .

A YEAR OF A.M.D.G. . . . "for the greater glory of God" . . . is the record inscribed by our faculty during this year of 1957-1958. At the communion rail they talk to God about us, in their academic planning we are their first consideration, in the classroom they teach us, and outside of school they are our friends and advisers. Because of their influence, our lives are richer and deeper.

From the heart of each Immaculata student, then, comes a sincere . . .

LIFE OF
LEARNING

Every hour of every day our library is filled with students seeking material for term papers, reports for history, a review of a best-seller, or—a chance to browse through current magazines, pamphlets, or "what-you-will."

Where there's life at I. H.—there's learning!

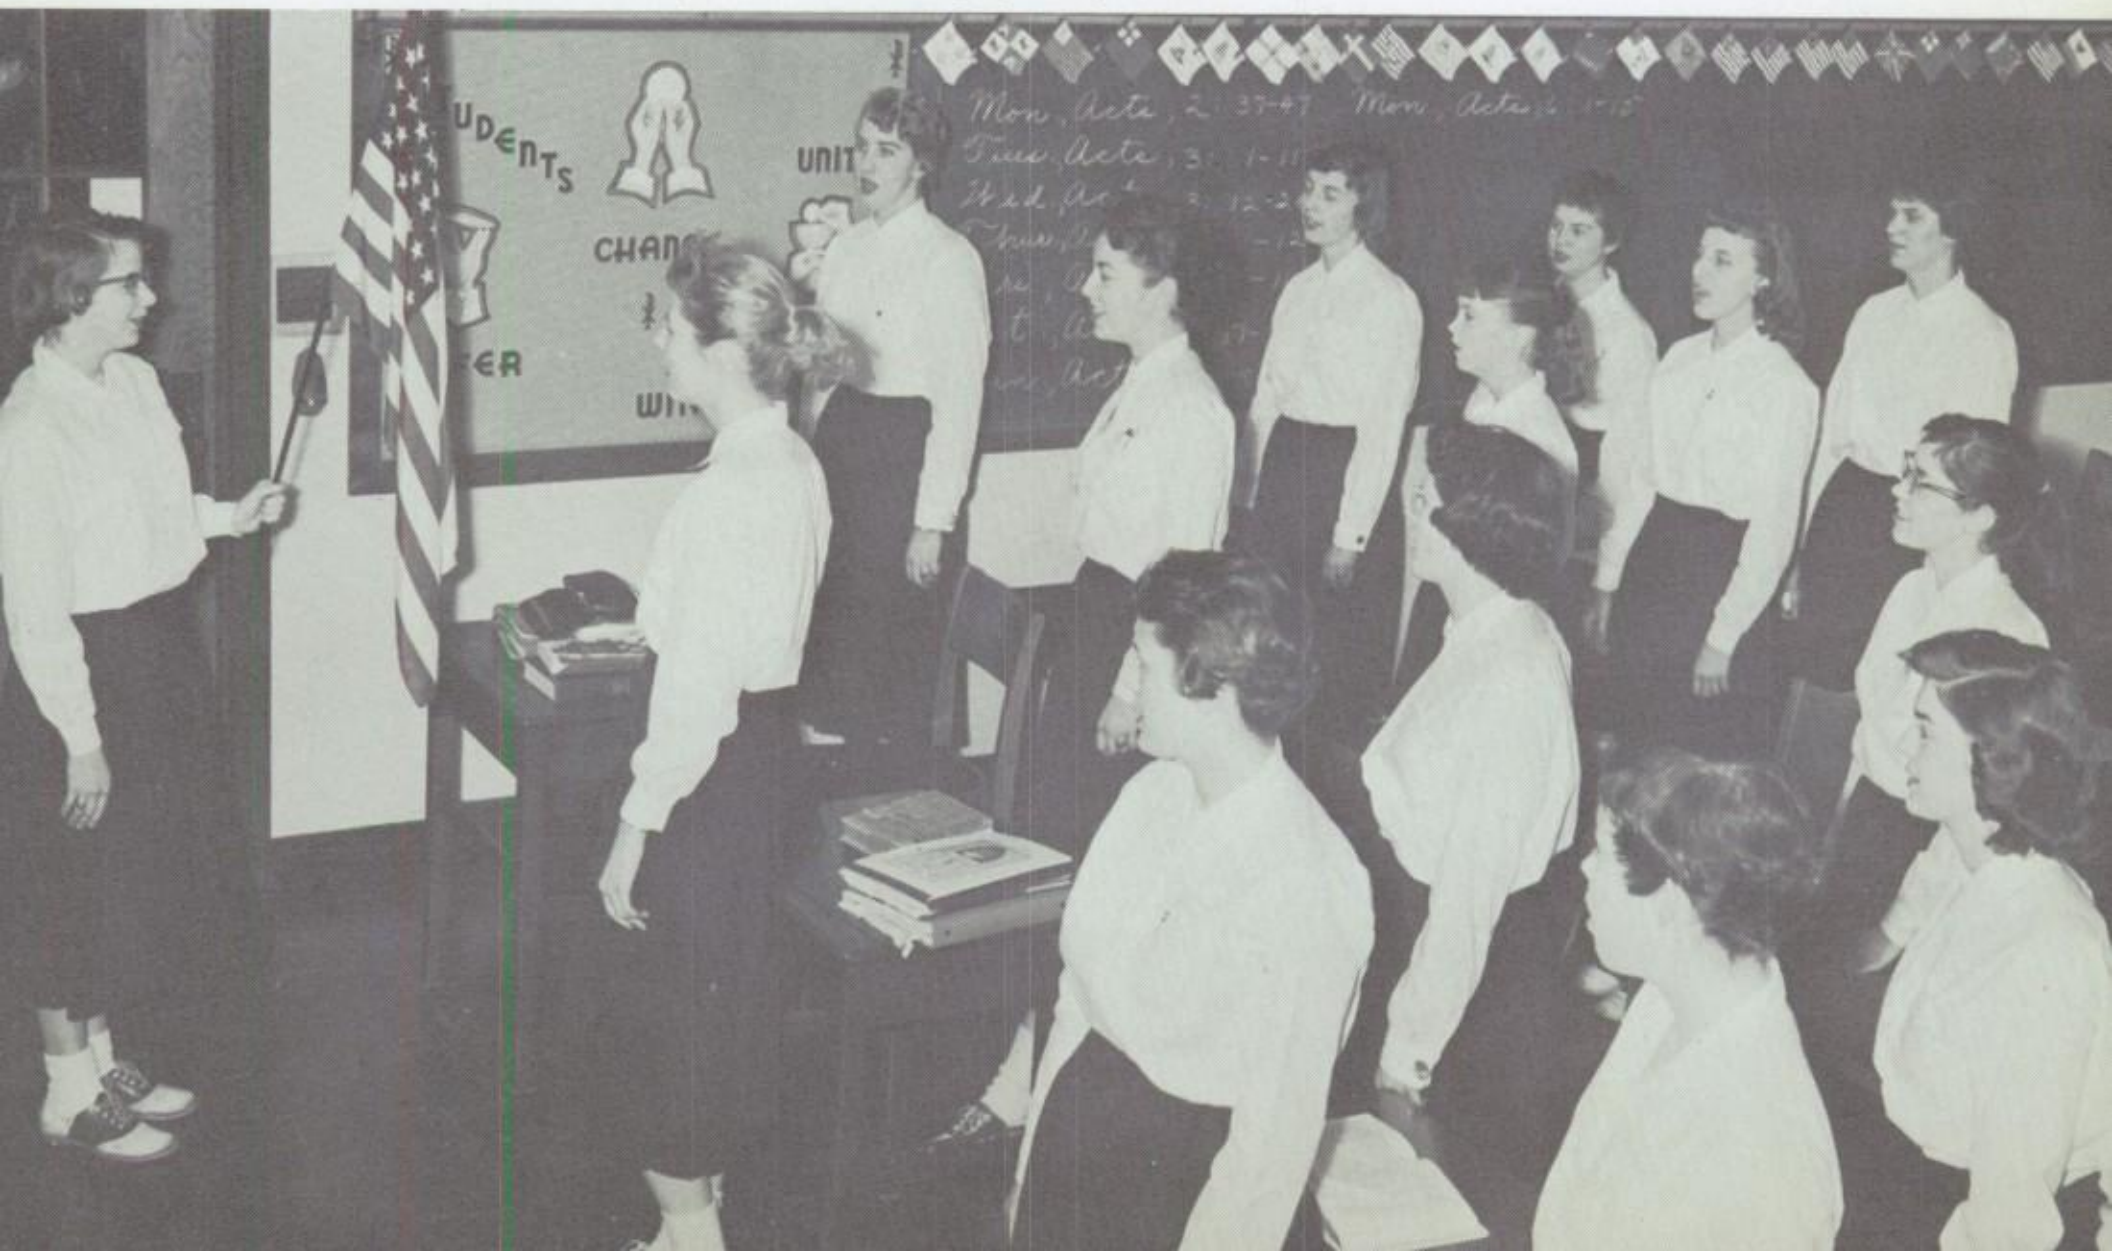

If you're a Republican, just write to the President. That's what George Ann Corbetts did—and she received an answer from Ike himself.

Social Studies

For broadening social and political perspectives there are: modern and United States history, civics and economics, Church history and sociology, plus a course in Christian family living for those who are fortunate enough to be able to fit it into their schedules.

Seniors begin every United States history class with the singing of a patriotic anthem.

In a biology class there is more to a crayfish than meets the eye (or the nose).

The chemistry lab always reeks of burned gas, hot sulphur and scorched rubber, but the science students enjoy their trips into the amazing world of science.

OUR SCIENCE CLASSES

This looks as if the juniors in the Physics class are having a jolly tug-o-war. They are, but they're also learning all about the strength of "air-pressure."

Trying to put out a candle the hard way? No—just a few chemical seniors testing for hydrogen, that strange gas that pops!

Freshmen in General Science are amazed at the twelve world projects being undertaken by the I.G.Y. (International Geophysical Year)

INTERPRET DISCOVERIES

Hamsters make lively studies for biology students.

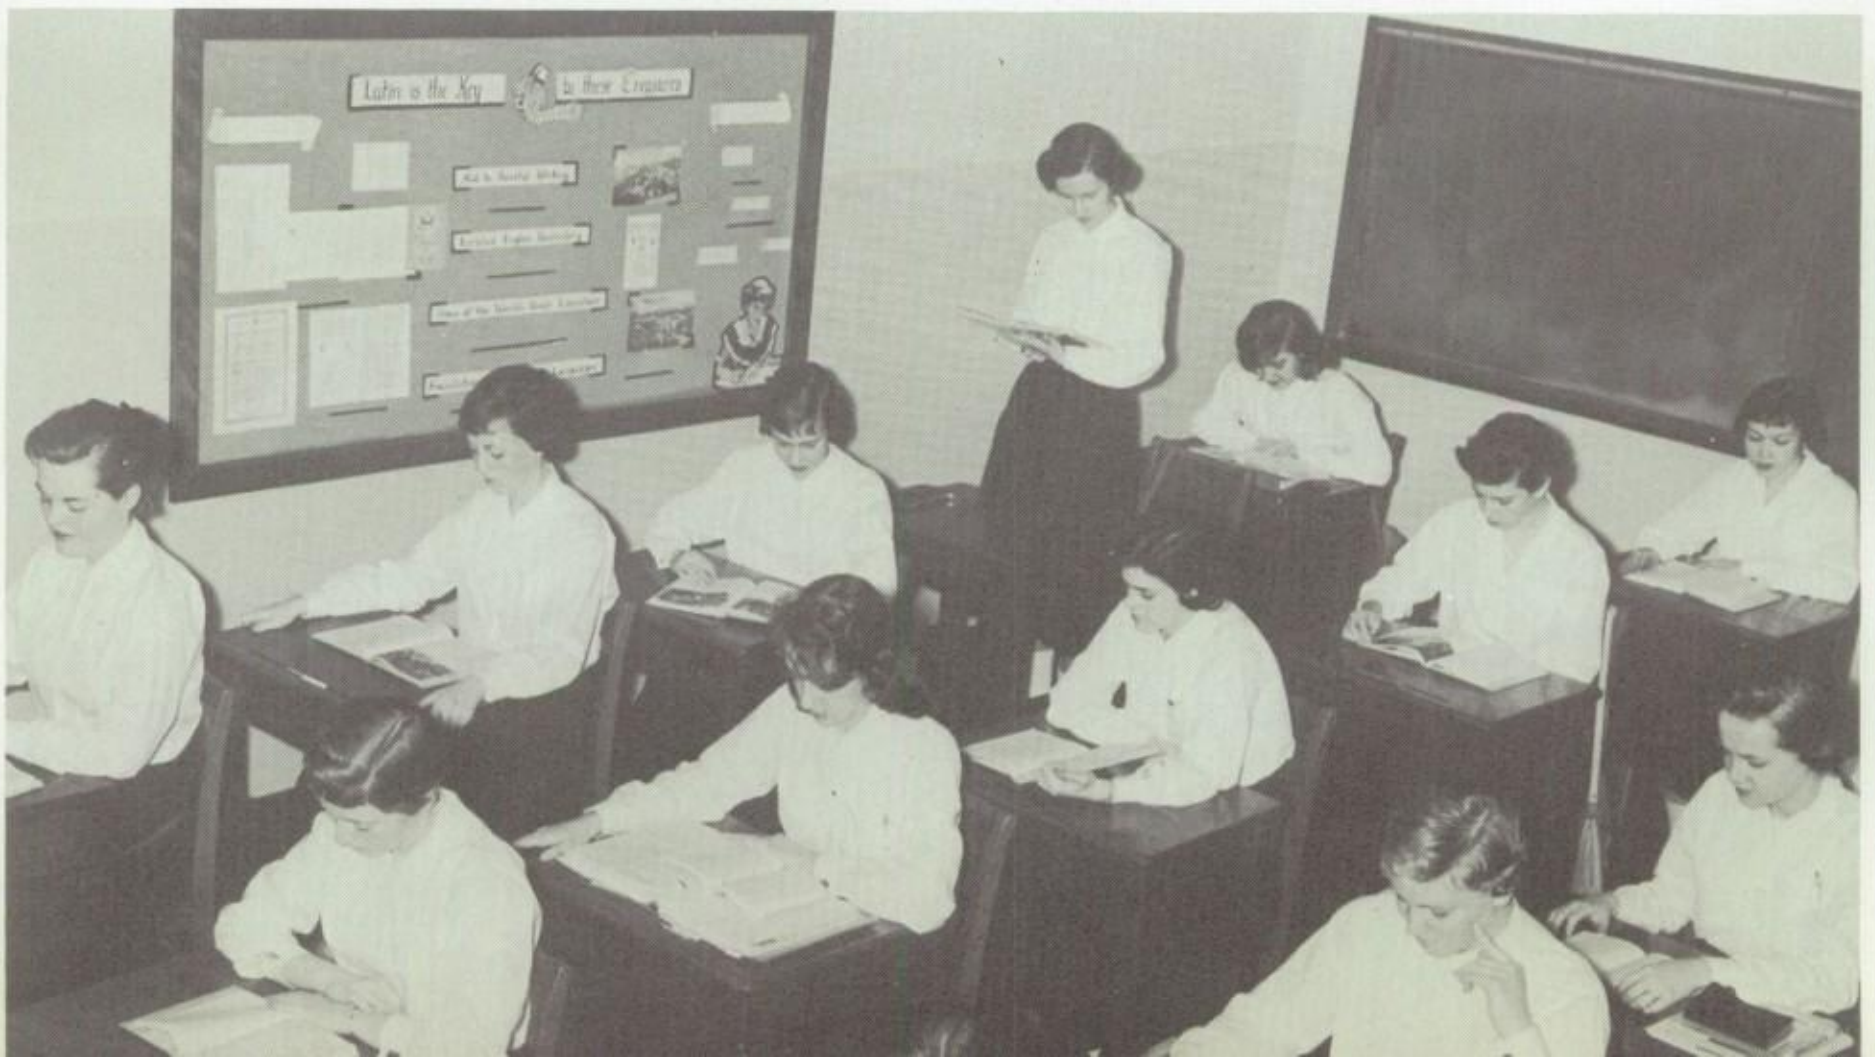

Languages

French classes seems to find time for many other linguistic achievements besides French grammar and syntax. In addition to reading French stories and magazines, the girls publish a newspaper in this language and frequently write and produce French plays. (We always enjoy the plays, even though we don't always understand what the actors are saying.)

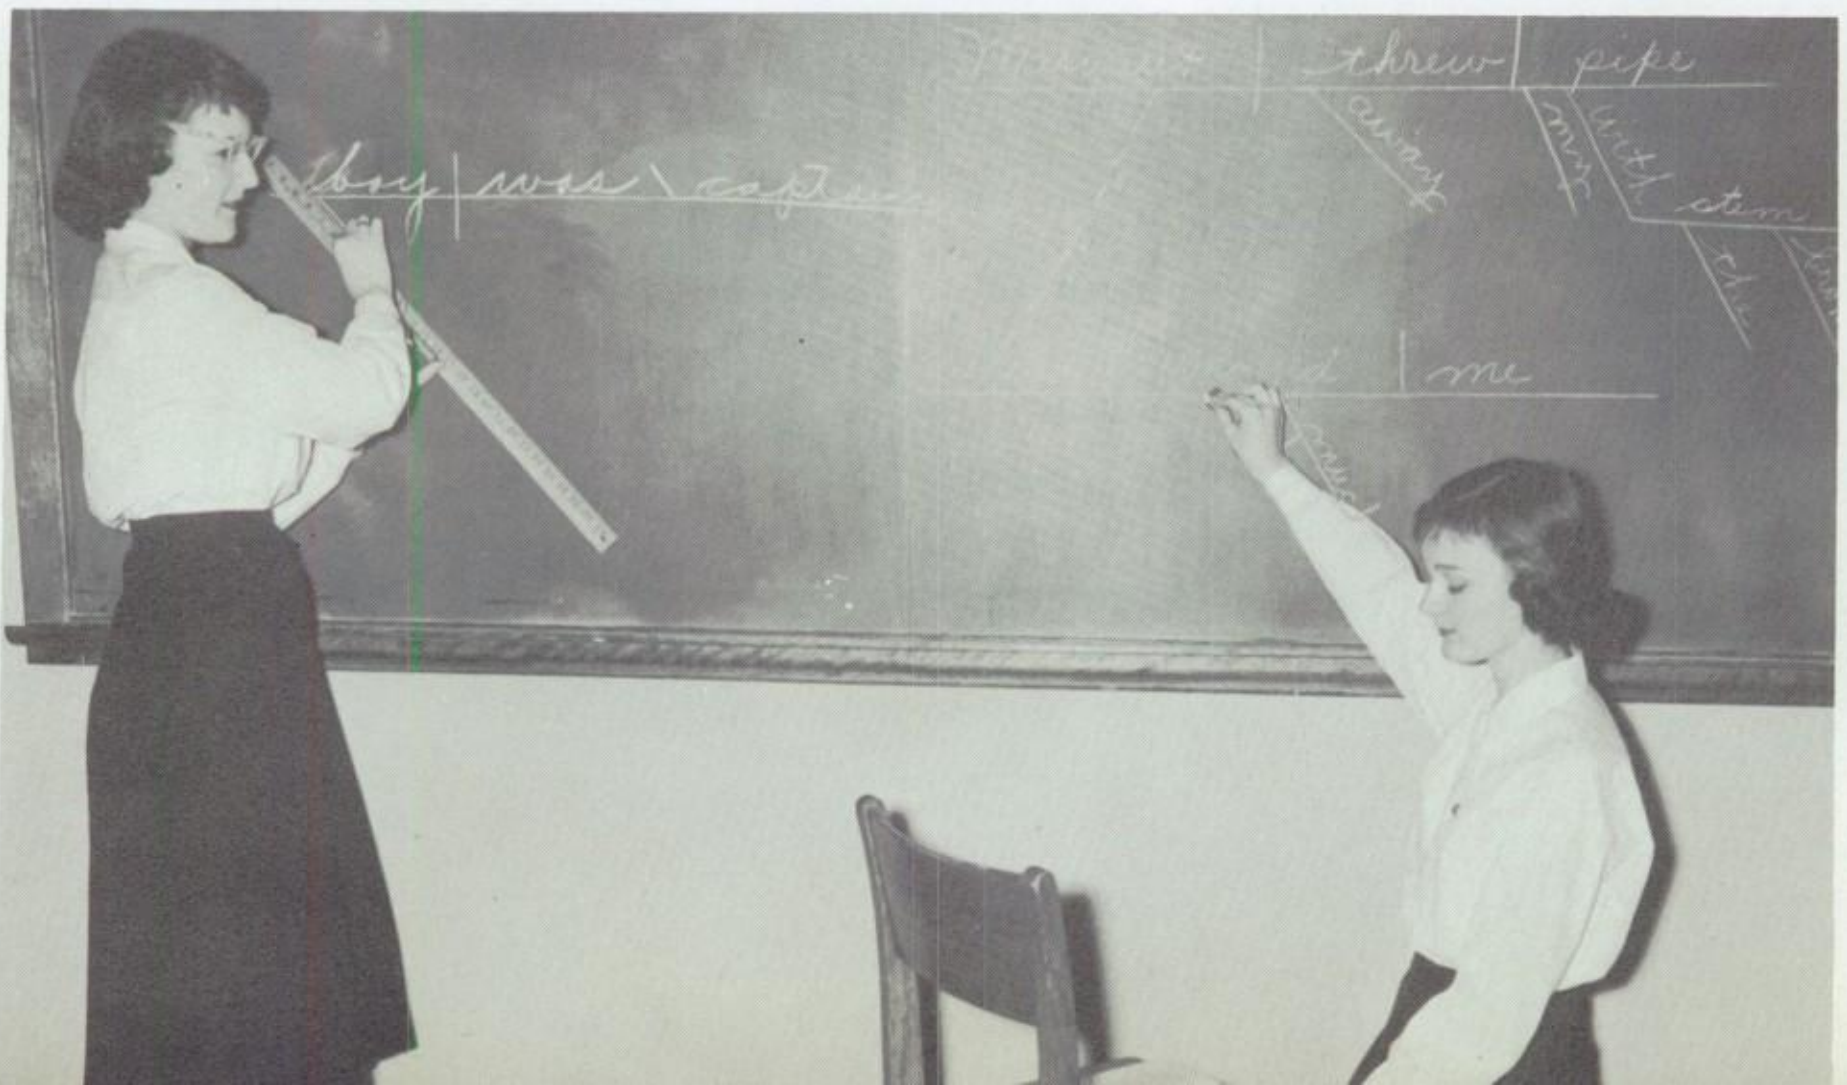

Latin still lives at I.H., and students still struggle with subjunctives and nominative absolutes, the political intrigues of Cicero, and the wanderings of Aeneas.

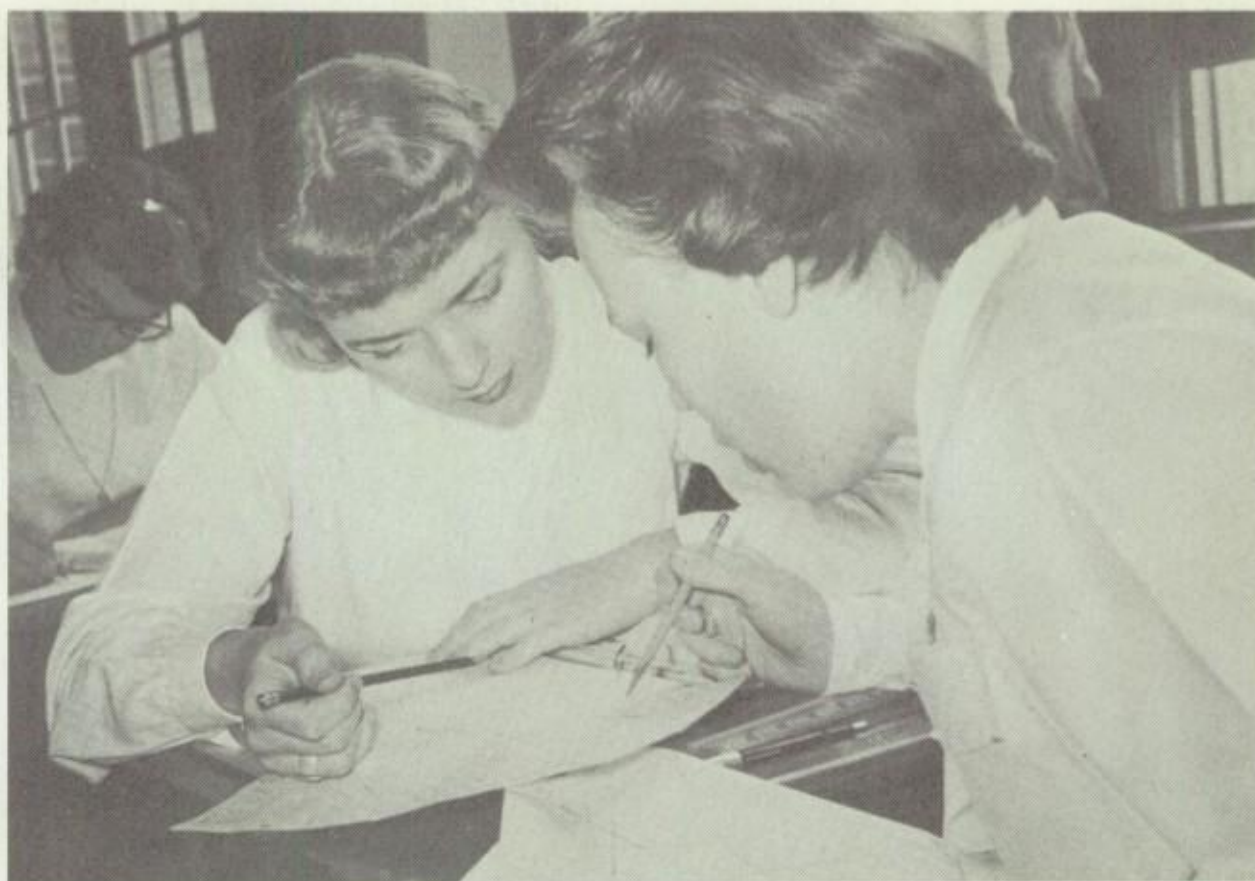

English

Reading and writing remain integral parts of our English courses. So, too, good old-fashioned diagramming, plus the more modern stress on and speaking techniques and listening.

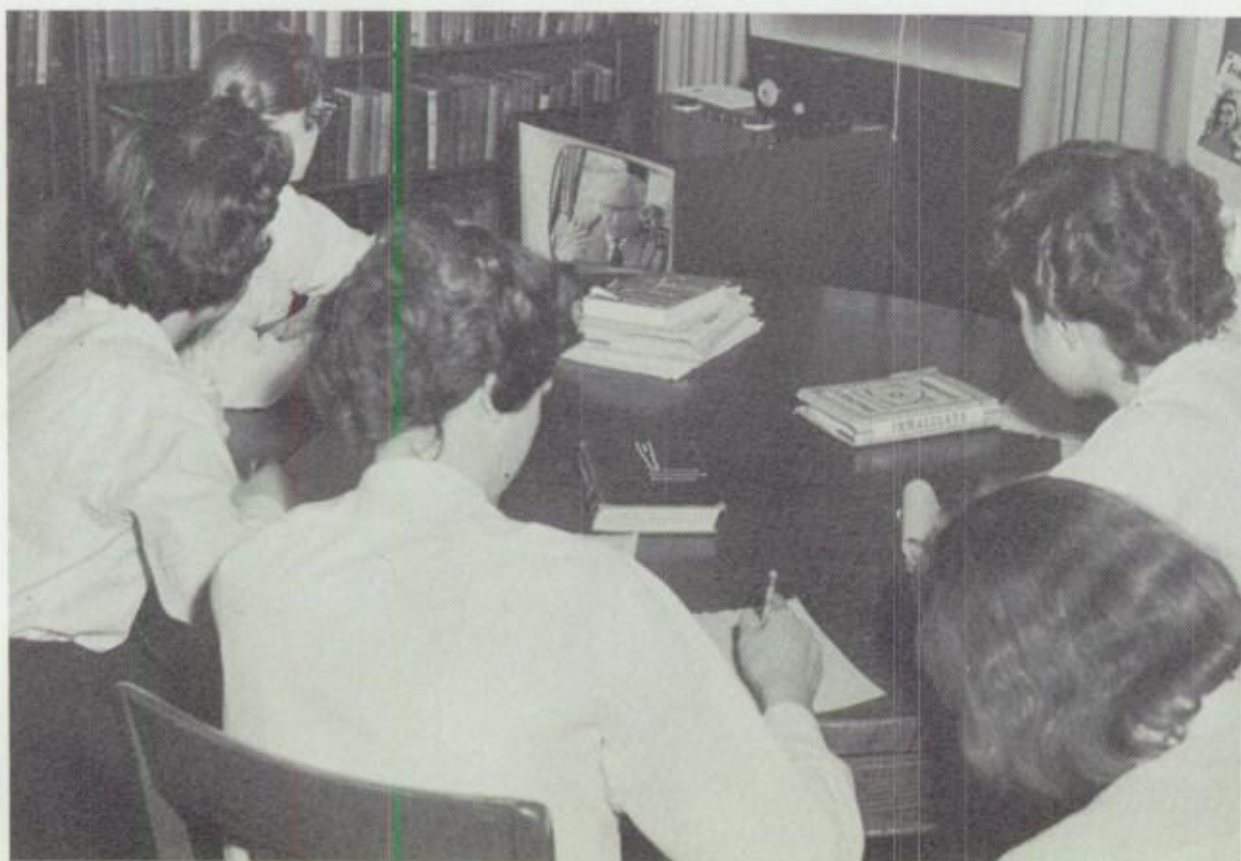

MATHEMATICS is a must.

Never before in the history of the world have there been such wonderful opportunities for mathematicians. Hence, girls at I.H. who elect advanced courses in this field are looking forward to careers as teachers, statisticians, chemists, physicists, and even as engineers.

Design Committee members of the Freshman Math Club are experimenting with their brain child, the *Math-Mobile*. They hope to demonstrate principles of balancing equations in this unique way.

Along vocational lines

are the secretarial courses. Careers in business appeal to many girls who elect two years of both shorthand and typing. Many other students take advantage of the courses for personal use in college or in later life.

The Fine Art of WOMANLINESS

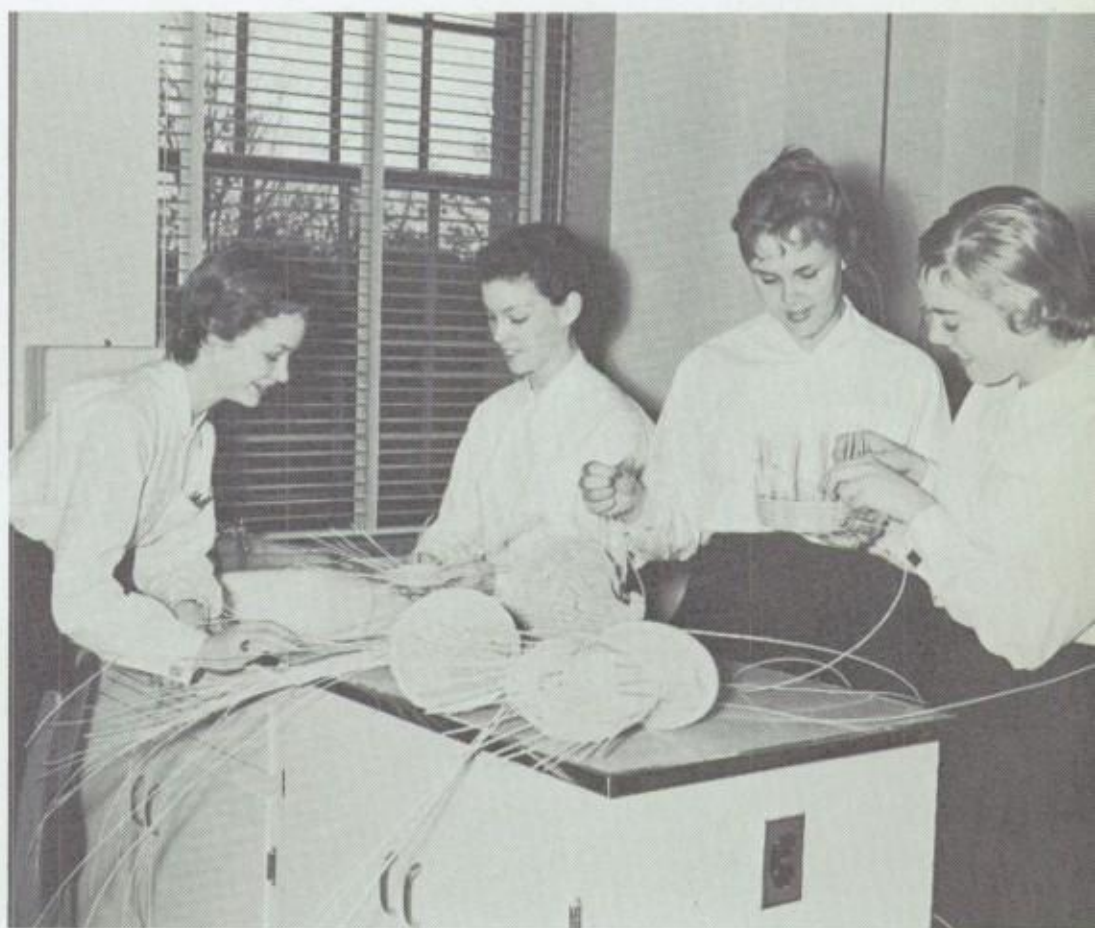

Many girls take advantage of "The Bride's Courses," and if they cannot fit home economics and clothing into their daily schedule, they join the Home Ec Club—just for the experience. To this group belong Clothing I and II, Home Economics, and Christian Family Living.

for our gifted ones

For gifted students there are studio art courses as well as the practical and popular "arts and crafts" course. Besides perfecting their own creative aptitudes, these students contribute a great deal to the beauty of our school. The ingenious bulletin boards and attractive posters that grace our classrooms and halls are usually the handiwork of our gifted art students.

It's All in a Day at I.H.

What goes on here

THEY SAY THAT YOU COME TO SCHOOL TO LEARN . . . We do, but we manage to find a lot of joy in the learning. There is always something to do, somewhere to go, or somebody to hear at I. H. Yes, the schedule is a crowded one, but we find it a good feeling — that feeling of being active, of doing things together.

THE GIRLS ATHLETIC ASSOCIATION BOARD under the direction of Miss Sally Sessions, the Physical Education Director, has the entire responsibility of Immaculata athletics and does excellent work in presenting an outstanding sports program.

G. A. A. OFFICERS are: President, Theresa Lassaline; Vice-President, Mildred Johnson; Secretary, Barbara Measelle; Treasurer, Mary Ellen Zinn; and Sergeant-at-Arms, Christine McCarthy.

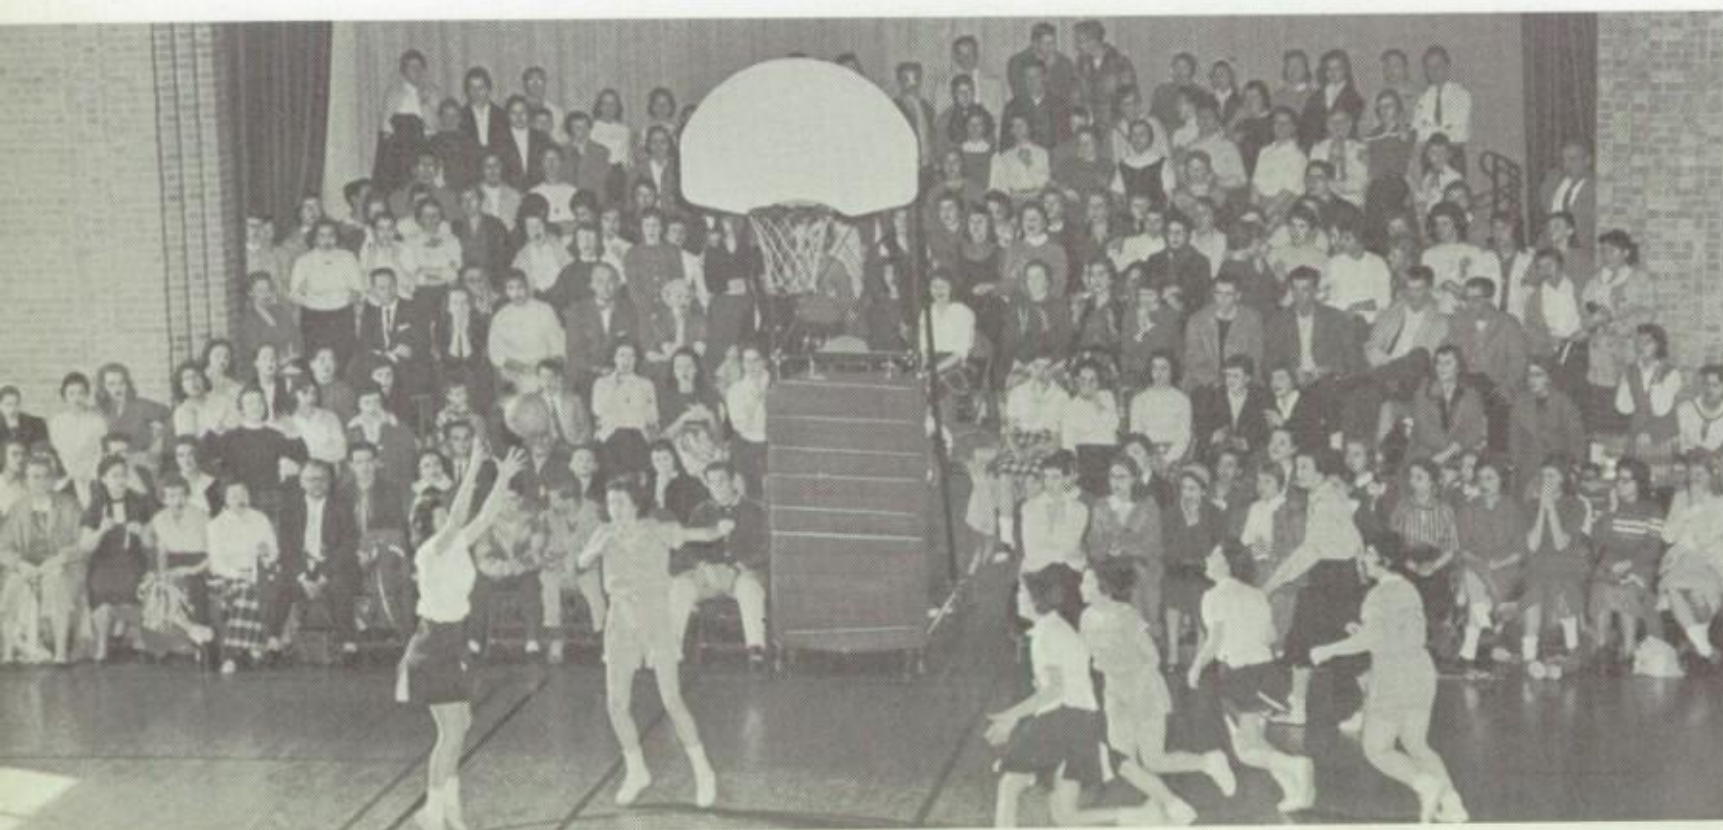

IN OUR IMMACULATA SPORT PROGRAM, we have four main objectives:

1. To develop physical and mental fitness.
2. To develop good behavior which will become habitual in everyday situations.
3. To form a broad attitude and a sensitive conscience which will serve as motivation for right conduct.
4. To develop leadership and a sense of responsibility.

THE I. H. ATHLETIC PROGRAM provides sports for all throughout the entire school year. In the fall we begin with golf and archery. Towards winter we go into volleyball, badminton, shuffleboard, and swimming. In the midst of winter we concentrate on basketball, and in spring we turn to tennis and softball.

"A DATE WITH

AN ANGEL"

--January 31, 1958

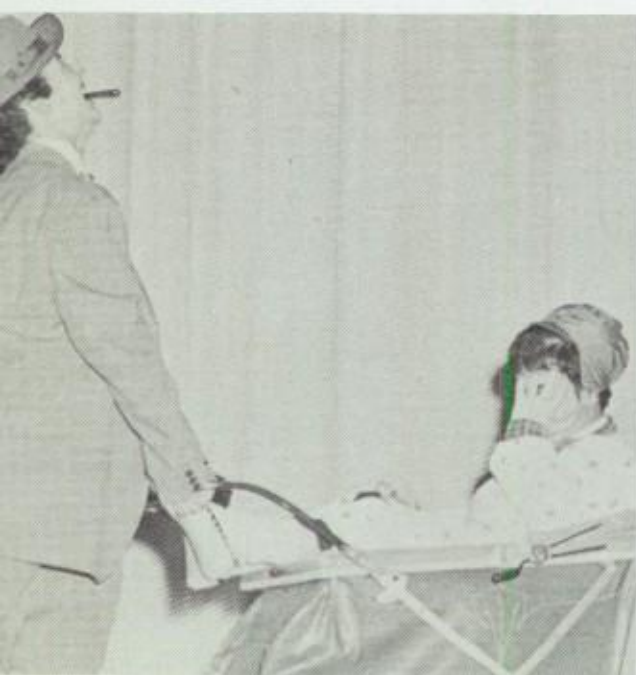

There's no-one like a Dad

On that one special night in the year we dated our Dads. The program for the occasion was written by Ann Gable and Mary Caton. In verse and song we highlighted red-letter occasions in the life of our Dads. Afterwards our Moms helped us to serve refreshments. We ended the evening dancing with our best date—our Dads.

CLASS OF 1958

WHEN WE WERE UNDERCLASSMEN, the *senior door* was a symbol of all the golden privileges that went along with being a senior. Such privileges as entering by the main door, being first down to lunch, first out of a gym assembly, and first in the eyes of teachers and underclassmen alike; or such privileges as wearing a senior ring, preparing for a senior prom, being feted at the junior and senior banquet and the sophomore breakfast—these and many other such merits made us long for that heavenly period when we, too, would enjoy the schoolgirl's paradise associated with "being a senior."

During this our fourth and last year at Immaculata, however, we have come to realize that being a senior means ever so much more than these incidental advantages. It means being first in spirituality, in studies, and in sports; first in social living, maturity, and leadership; and first to set the good example of sacrifice and service.

It has taken us a long time to understand what it really means to be a good senior, how to appreciate our school, our teachers, and our classmates in the right way. And now that we do, we must learn the hardest lesson of all. Being a senior means that in June we must say "good-bye" to four wonderful years at I. H.

BEING A SENIOR MEANS SAYING "GOOD-BYE" to four fun-filled years, for our social life at I. H. has not been neglected. From community singing in the morning to intramural sports and club meetings after school we were in a constant whirl. Freshman initiation, exciting Sodality fairs, operetta and dramatics programs, choral and orchestra concerts created social diversions all through the years. And, of course, we'll never forget that good old "cafeteria comraderie" at noon time.

When our dances came along we had almost as much fun decorating beforehand and cleaning up afterward as we did at the dance itself—but just "almost." We'll always remember "Showboat," and "A Date with an Angel"; the pride we felt in showing our dates around the school, as well as the sociability that was a part of the dances themselves. We'll remember especially our heavenly last dance—the Senior Prom held in the Crystal Ballroom of Lovett Hall.

These and many other memories will go with us through the years to remind us of our happy high school days at I. H.

CLASS OF 1958

Many times during our years at I. H. we have sung these words and reminded our Lady that she was "queen of our school" and that we were, in a special manner, dedicated to her service. At Immaculata our love for our Blessed Mother has been deepened and through her intercession we have come closer to Christ.

We are grateful for all of the spiritual advantages we have enjoyed. Through the talks given by Father Dietz, the lessons learned in every class, and above all through the opportunities we have had to assist at Holy Mass and receive the sacraments frequently—our spiritual outlook has been broadened and our moral convictions strengthened.

We realize—and with a bit of fear that we have not always cooperated as fully as we might have done—that our part has been to accept these spiritual gifts and Christlike guidance. Those of us who have tried earnestly to cooperate know that the spiritual formation we have received will certainly help us to survive and spiritual conflicts that we shall meet in our future lives.

From each one of us, then, a sincere word of thank-you for all at Immaculata that has led us more directly and closer to Christ.

We ask that we may carry the spiritual ideals of our high school days into life with us, that we may always remain loyal followers of Christ.
